NEXT STEPS IN SUSTAINABILITY

We see sustainability as a step by step process. We are committed to introducing new sustainable products and brands every year. In this catalogue you will find a wide range of (certified) sustainable options. We believe that it is important for today's consumer to know how their promotional product was made.

Knowing that a product was made in a factory that has a social audit like BSCI or that the materials used are recycled or organic gives the assurance that a product will not unduly harm the environment or the people in the supply chain.

So how do we inspire you to go green? This year we are expanding our Elevate NXT collection of GOTS and GRS certified apparel with new styles, including masks, and we have added a great range of GRS certified bags. You will find notebooks made of waste wool and waste cotton, pens that were bottles and of course a GOTS certified cotton tote and drawstring backpack. And the best news of all, we can also brand your products with certified inks, so your promotional item will be green "all the way".

TAKING THE COTTON BAG TO THE NEXT LEVEL

Cotton totes and drawstring back packs are among the most used promotional products. In the fight against single use plastic bags they are the most popular choice. But what if you want to take a reusable bag to a higher level of sustainability? There are several choices you can make when you select a cotton tote for your promotion. Standard cotton, organic cotton or recycled material. The Orissa tote and drawstring backpack are made of organic cotton. The GOTS certification gives the assurance that the complete supply chain has been certified up to the warehouse.

But you select a promotional product with the intention to brand it with a logo. That is why the Orissa bags also are offered with GOTS certified branding. This means that you select a truly 100% certified product from cotton field to branding.

SO, WHAT IS NXT?

SUSTAINABLE CORPORATE WEAR

Elevate NXT is the next step in promotional apparel. With the garments & bags of Elevate NXT, we follow the supply chain from the source to the branding. Made of GRS certified recycled polyester or GOTS certified organic cotton, our Elevate NXT styles are truly sustainable. And of course, they have all the qualities you have come to expect from an Elevate product: designed for branding and super comfortable to wear.

And as we believe that the branding on a product is as much a part of it as the buttons or the zipper, Elevate NXT products are only offered including branding. Available in five popular promotional colours and our special Elevate NXT blue, this really is the next step in promotional apparel: certified from yarn to inks!

BRANDING ON ELEVATE NXT?

Elevate NXT is the next level in promotional and corporate apparel with GOTS/GRS certified garments and bags that will be decorated with certified branding techniques.

Elevate NXT gives the assurance that both product and branding are certified.

The objective is to sell a 100% certified sustainable promotional product from raw material to printed logo. All Elevate NXT items will be decorated with GOTS (or GRS) certified inks or threads. The inks/threads used are sustainable and free of any harmful chemicals – meaning they do not contain hazardous substances for humans.

To assure that the sustainability of the garment or the bag is guaranteed Elevate NXT is only available including branding.

THIS PRODUCT HAS BEEN DECORATED WITH GOTS/GRS CERTIFIED PRINT

The certified branding techniques available for Elevate NXT styles are Screenprint, Transfer and Embroidery.

For Screenprint and Transfer we use special GOTS/GRS certified inks. These inks are environmentally friendly, containing no hazardous substances for humans. For Embroidery we use GRS certified recycled polyester yarn.
