The Display Handbook 22/23

A creative solution for every need

Create greater brand awareness to stand out from the crowd

Our extensive portfolio of display products includes everything from portable A-sign boards, roller banners and digital displays to custom built exhibition stands, helping brands to creatively capture the attention of their target audience across a variety of display solutions and vibrant printed graphics.

-  Best seller
-  1 Year hardware guarantee
-  5 Year hardware guarantee
-  Comes with bag
-  Illuminated product
-  Available for use outdoors
-  Custom sizes available
-  Made in Europe
-  Use with fabric graphic
-  Use with PVC graphic
-  Use with self-adhesive graphic
-  Use with rigid panel graphic
-  Direct printing onto hardware

A solution for every requirement

Our comprehensive range of creative display solutions

Our goal is to offer a comprehensive range of innovative products for a variety of industries and applications, all from a single supplier. This collection contains our portfolio of creative display solutions including our latest new products.

01 Display Stands

Complete exhibition stand solutions, incorporating hanging structures, modular stands, towers and customised stands

02 Display Backwalls

Large format graphic backdrops which are ideal for conferences, promotional activities and events

03 Display Signs

Professional wall, floor and suspended signage solutions

04 Display Banners

Portable display options, ideal for temporary deployment

05 Flag Banners

Attract attention at a distance through movement with eye-catching flag solutions

06 Tents

Perfect outdoor temporary shelters, outdoor pop-up shops and market stalls

07 Counters

Adaptable and portable temporary counters for promotional, display and exhibition applications

08 Barriers

Convenient and easy barrier systems, to create temporary areas, manage queues and control crowds

09 Ancillaries

Accessories designed to increase the functionality of a chosen product range

Display Stands

Display stands are the perfect solution for an array of different applications. From exhibitions, conferences, events, retail event zones to window displays and product showrooms; their uses are unlimited. The perfect stand will showcase and increase the opportunity to interact with existing and potential customers by creating engaging, and innovative brand promotion and messaging.

Our Display range of products include hanging structures to attract interest from a distance, modular stand components and display towers that can be combined to create truly contemporary and captivating exhibition spaces. The collective modular systems; Modulate™, Formulate, Vector and Linear are all designed to work in unison, to deliver a re-usable and reconfigurable exhibition stand. In addition, stands from the modular range also all feature replaceable graphics, thus protecting the investment in hardware, whilst still being renewable by updating branding or marketing messages.

Creating an effective display stand that drives results is extremely straightforward with this collection of pre-configured solutions. Simply select a design for inspiration whilst considering floor size and parameters of price-point. For a more unique stand construction, the modular range can also be customised - incorporating precise requirements with all the benefits that modular exhibition systems offer for complete creative innovation.

Stand component systems

Modulate™

Modulate™ is the fusion between two of our original concepts: Formulate and Vector. The range is composed of various frames made of aluminium tubes, equipped with the patented magnet system: MagLink. Modulate™ provides a custom build solution through its hundreds of possible configurations using the various modules.

Vector

One of the simplest and most versatile communication solutions on the market. Vector is an aluminium frame system with a stretched fabric graphic that adapts to any environment. With a variety of different profiles, all applications are possible: suspended, wall-mounted, self-supporting, double-sided or illuminated.

Linear

A versatile POS and stand solution which enhances flexible and rigid PVC supports. Linear can either be a visible or invisible structure, where stands can be configured according to available space and the desired design.

Arena

A tubular aluminium gantry structure that is both extremely strong and light. The different sections can be assembled according to the space and can be covered with fabric or vinyl graphics.

Hanging Structures

Make your exhibition stands stand out with an eye catching Vector LED hanging structure. Vector LED are the perfect combination of our versatile Vector frames combined with a powerful LED system. Alternatively, select one of our lightweight Formulate hanging structures to compliment your stand design, which uses a lightweight 30mm tubular system that can be neatly wrapped in a fabric printed graphic.

Arch

The Formulate Arch offers a freestanding walkway solution created using our 30mm Formulate structure, which is lightweight and easy to build.

Considerations for exhibitions

Why exhibit at a trade show?

Trade shows remain the preferred communication channel for companies seeking to increase their reputation and promote their image.

The benefits of a trade show are vast and very attractive. They enable several actions to be carried out in a relatively short period of time:

- Brand positioning
- Prospecting
- Market research
- Launch of new products
- Building customer loyalty
- Business networking

The centrepiece: your stand

The success of any trade show depends on its cost vs quality and ROI for generating leads and meeting other sales / marketing objectives.

1. Location:

How much space? How many open sides?

2. The design:

Which media: textile, rigid, flexible panels?

Need to communicate in height: sign, extension or extension of storage room?

Do you need a storeroom to store equipment?
What kind of lighting?

3. Use:

How often?

Will it need to be scalable in shape and size?

What means of transport do you have?

Will the stand be reused in another environment i.e. customer showroom, inhouse events etc.?

4. The budget :

What is the budget for the stand?

Over how many shows will it pay for itself?

The keys to success

To have a successful trade fair, it is essential to :

- Set 3 to 5 objectives that will guide the marketing strategy of the event
- Ensure maximum visual impact with a quality stand that will enhance the company's image (openings, suspended communication, graphics, materials, etc.)
- Implement effective communication and promotion: before, during and after the event (emailing, invitation, social networks, stand promotion, etc.)

Why choose a modular stand?

- Lightweight and compact
- Reconfigurable
- Quick payback
- Durable
- Easy to assemble
- Standard or custom made
- Unlimited message renewal
- Ergonomic

MODULATE™

Modulate

The best way to attract attention

Modulate™ is the result of the fusion of two original concepts that have proven successful in the exhibition and retail world; Formulate tubular solutions and the modularity of Vector frames.

Modulate™ is a collection of various frames made from aluminum tubes and covered with a printed textile cover. These frames can be easily connected to each other by means of powerful magnets placed inside each structure.

Based on this simple magnetic principle, it is possible to combine the different Modulate™ frames to create configurations for all communication areas: at the point of sale, at trade fairs, in exhibition areas, in shopping centres or simply within companies themselves.

MagLink connector, simple, fast and reconfigurable

Thanks to the exclusive MagLink magnetic system integrated into the structure, you can connect the frames to each other simply by bringing them together.

Optional 400 mm extension to change the height of the structures

MagLink connectors 360° in each post

Modulate™ carry bag with dedicated slots for feet and graphics

Intuitive marking on each section for easy assembly

Self-locking system with elastic posts and push-fit button

Rounded or straight corners with the reference MOD-SQ-ANGLE

2 Stabilising feet with Twist & Lock system, supplied with each frame

Central reinforcement bar (18 mm diameter)

Double-sided custom printed fabric graphic that zips closed

Tool-less assembly

Modulate™ structures are easy to assemble without tools. Each section is marked with numbers and colours and connected with push buttons. Once the structure is assembled, the Twist & Lock feet will rotate a quarter of a turn until they lock into a perfectly stable self-supporting frame. Finally pull-on the printed fabric graphic which perfectly fits to the contour of the frame.

Twist & Lock Foot installation

Structures with unique technological innovations!

To add versatility to Modulate™ structures, a 400 mm tubular extension can be added. With this extension, which is easily placed between two sections, you can use the same frame with two different heights.

Standard Modulate™ Frames

Modulate™ is an innovative double-sided display system that consists of a set of lightweight aluminium frames covered with a custom printed tension fabric graphic. Frames connect together using powerful magnets encased inside each element and can be joined at any angle to create shaped displays or backwalls. Frames are completed with tension-fit fabric graphic pulls over the frame and zips at the base. Frames are available in various widths and two height options. Each frame is supplied with two stabilising feet which can be used if required for extra stability. The Modulate™ Straight frames can be used on their own or combined with other frames to create hundreds of configurations.

| | |
|--------------------|--|
| Material | Aluminium |
| Tube | 30mm Ø |
| Assembly | Tool-free push-button connectors |
| Shape | Straight |

Modulate™ cupboard - door with handle (without lock)

Modules join tool-free and without any connecting parts

The ease of assembly of the range allows for reconfigurable and reusable solutions: mix and match structures in an instant!

Vector

Visual marketing for every budget

Whether wall mounted, free-standing or backlit, the diverse range of Vector aluminium profiles provides a solution for every need and every budget.

They offer optimal visual impact and original designs that can be adapted to any event: showrooms, point of sale, exhibitions, museums and many others.

Anodised aluminium profiles

The Vector range includes 7 aluminium profile models that are perfect for all applications. Let our overview table guide you and make your choice easily.

| Code | VECTOR | Wall mounted | Free-standing | Illuminated | Double-sided | Premium range | Various colours |

* Available in standard modules for stand application

Vector Modules

An ultra-compact solution

From free-standing textile walls to exhibition stands, the Vector range offers a versatile and adaptable solution for all your events. The Vector frame system with stretched fabric covering is one of the simplest communication solutions on the market, particularly in a stand environment. Scalable, reconfigurable, ultra-portable: go from a 9 to a 15 m² stand with ease. Easily create stands of all sizes and shapes and accessorise them with spotlights, counters, document holders, etc.

A compact solution for portability and optimised storage

Choose the Vector Modules:

- 50 mm aluminium profiles
- Different modules: walls, arches, LEDs, storage...
- Packaged in numbered sections of 1250 mm,
- Delivered in a cardboard box with assembly instructions, accompanied by the visual of your choice
- In stock all year round
- Each module is already perforated on 4 sides and equipped with the necessary screws: easily assemble different modules together, one Allen key is enough.
- Reconfigurable and reusable: store the stand at home in a small box (1350 x 400 x 300 mm)
- Excellent return on investment.

Vector Modules – Walls

50mm 8 connections

LN607 - Square post
75mm 8 connections

LN605 - Beam 45mm

LN619 - Oval
Beam 50mm

Graphic options for dressing structures

Whatever media you wish to use, you can choose to dress the structure entirely or partially.

PVC (1mm) graphics require the use of an adhesive magnetic tape which will be positioned on the back of the graphic with a metal strip that adheres to the structure.

Rigid panel graphics (5mm) allow the panel to fit directly into the channel of the post. If you wish to cover the entire structure, male and female hook and loop fasteners are used on the back and on the structure.

Linear Modules

The Linear range is made up of different aluminium profiles and is intended to provide an alternative to fabric-covered structures. The construction of grooved poles and reinforcing crosspieces allows the structures to be fitted with flexible PVC or rigid panel graphics.

Linear Modules are made up of aluminium posts and cross beams cut into 1.25m sections and are available in five different shapes: connecting posts, straight walls, curved walls, and returns. Create stands of all sizes or shapes and accessorise them with spotlights, counters and literature holders.

Linear Modules

The Linear range is available in 5 modules that can be combined to create different configurations.

Posts are cut into 1.25m sections, making them easy to transport and store. They are ready to be used with custom printed graphics.

Scalable solutions according to your needs and budget

Arena Structures

Arena Gantry structures for your stand

These 25mm diameter aluminium tubes have been assembled and welded into sections of various sizes to form the basis of an imposing and solid architecture.

A wide range of sections are available to make this solution compatible with your project requirements. With 14 components in various lengths and designs, you can create the right structure for you, and your chosen mode of transport.

Simple, tool-free assembly

Simple assembly - sections are connected using the supplied bolt and wing-nut fixings, and no tools are required. The double-sided graphics are attached to the gantry using a bungee cord. Create maximum brand visibility with up to 6m sections without the need for reinforcement.

Arena components

Arena Straight Sections

The Arena Straight Sections are available in a variety of lengths, they are strong but lightweight with a natural silver grey finish. The system is quick and easy to assemble using bolt and wing-nut fixings. This aluminium tubular system is both modular and scalable, where different sections can be assembled and reused according to the needs of each project. The structure can then be dressed with interchangeable UV printed PVC graphics.

| UT-S1500 | Section 1500mm |
| UT-S2000 | Section 2000mm |

Arena Junction Sections

The Arena Junction Sections are available in a variety of configurations from: 3-way T-junction, 4-way corner junction, 5-way corner junction, and 6-way junction. The choice of sections enables a custom build design for your application to create a modular and scalable system. The structure can then be dressed with interchangeable UV printed PVC graphics.

Arch

Formulate Arch

When display formats become common place and no longer stand out then choose something with an innovative shape! The Formulate range offers a variety of great shapes with clean lines, ideal for creating picture backwalls or defining areas in rooms by screening or zoning. The double-sided tension fabric graphics perfectly contour the shaped aluminium structures and maximise brand messaging.

Display Backwalls

Display Backwalls create a dramatic backdrop to events, presentations, product demonstrations, pop-up shops or window displays. They are also ideal for smaller spaces, or as large static advertising boards in public spaces such as museums, reception areas, public transportation hubs and other large spaces.

Segmented Frame Walls are fully configurable, professional grade backwalls, where flexibility, ease of storage, reusing, portability and assembly are important. The pop-up display backwalls are constructed from lightweight aluminium scissor mechanisms, that are easy to transport, assemble and store, and are ideal for small exhibitions or events, as well as static displays. For a simple backdrop, the Pegasus tension walls offer a cost effective, easy solution to meet those needs. Configurable in both height and width, the tension wall is quick to assemble and makes an ideal backdrop to temporary or short-term presentations.

Display Backwalls

Our backwalls are available in several system configurations, depending on the application, with each offering a different method of construction, illumination and use.

Illuminated pop-up backwalls

Embrace+

Bring drama and impact with large illuminated backwalls, U-shapes or seamless 90° corner walls using Embrace+; the premium portable LED tool-free system. Comes in a selection of sizes and is linkable so Embrace+ can fit and brighten-up any size event.

Impact Pop-up Bundle

Impact Pop-up Kit

Carry bag

Straight or curved frame system

Hangers, kickers and mag bars

1x Roll of self-adhesive magnetic tape

Zenith transport case

Thermoformed table top in beech

2x PS950-1000 LED lights

Impact Pop-up Curved

A great entry level display backwall that is perfect for use at an exhibition, event or for a demonstration backdrop. Frames are available in a variety of widths, and are quick and easy to deploy using the self-locating locking arms. Magnetic tape attaches to the back of the graphic panels enabling them to be attached directly to the mag bars which are mounted to the frames.

Display Signs

We provide a comprehensive range of professional display signage solutions for a variety of uses. From navigational signs to advertising, information, decorative and display needs.

Display signage solutions are versatile, reusable, durable, and reliable, ensuring investment in hardware is maximised, whilst allowing the flexibility to update marketing messages frequently.

Display Signs

With a wide choice of installation options such as wall, suspended or free-standing, as well as eye-catching illuminated lightbox versions, we are proud to offer one of the most comprehensive ranges on the market.

Non-illuminated free-standing signs

Wedge

Wedge is a weighted clamping banner base range that comes in 2 parts and is designed to hold a variety of rigid substrates for indoor or temporary outdoor usage. Available in four sizes from 300mm up to 1000mm Wedge can be used in tandem with a second pair of bases to create larger displays.

| | |
|---------------------------|--|
| Material | Powder coated steel |
| Graphic area | Single or double-sided |
| Graphic attachment | Screwed to base |
| Graphic option | Rigid panel from 18-40mm thickness - optional extra 1500mm height max. |
| Application | Free-standing |

Flag Banners

Draw attention to branding, products, services, or business premises with custom printed flags. Instantly noticeable due to their height, shape, and movement, our all-fibre flag poles are durable and flexible, easy to assemble and quick to deploy, making them an extremely effective means of advertising.

Choose from a range of free-standing, post / wall mounted, mobile and specialist hardware that can be used in a variety of applications such as car forecourts, festivals, and beach flags.

Alternatively, deploy taller or multiple flags to increase visibility and attention to branding. Our all-fibre flag poles are reusable with interchangeable graphics for greater return on investment. To protect this investment, it is recommended that flags be kept securely in place by selecting an appropriate base suitable for the desired application and location from the specifically designed range.

Flag Banners

Available as single or double-sided options and printed using hardy, UV resistant media, flag graphics can be utilised indoors or outside with standard or custom flag shapes.

Free-standing flags

Zoom+ Quill / Feather Flag

Popular and versatile, lightweight flexible flag system, with black finish all fibre poles. Choose Feather or Quill shaped graphics. Ideal for advertising and used for all types of indoor and outdoor displays. Optional custom printed flag graphics are available in a range of sizes from small to extra-large and, with a choice of single or double-sided options (small, medium, and large). The eye-catching shape creates movement in the wind and is a great for attracting attention.

Wind Dancer

An imposing telescopic flag which stands 5m high when fully assembled and is certain to make an impact at any outdoor event. Wind Dancer comes complete with a base which can be filled with either water or sand. The 3.5m flag height makes an impressive statement when the flagpole is deployed at its full 5m height, and is particularly impactful when used in large crowded areas because of its dominating presence.

Post / wall mounted flags

Mistral

The Mistral is a fixed outdoor flag system designed for mounting to lampposts or building exteriors and is perfect for advertising or promoting a brand or event. The mechanism attaches directly to a pole, posts, or wall and can be moved to accommodate varying graphic heights. An eye-catching solution that can also be used for information and wayfinding. This flag is especially effective when repeated over a series of posts.

Tents

Take advantage of outdoor events with a temporary structure and create additional marketing opportunities. Offer customers protection and shelter from the weather by choosing custom-printed tents, that also provide an attractive brand marketing solution.

Conventional pop-up tents and gazebos are fantastic provisional outdoor or indoor structures which provide a unique way to advertise in a vibrant impactful manner with fully printed canopies and walls.

Constructed from robust steel or aluminium in a variety of sizes that are easy to transport, assemble, deploy and pack away, pop-up tents are ideal for short term events, fairs and exhibitions.

Tents

For a more unique and unconventional structure, choose the Bora Inflatable Tent. Simple to inflate for rapid deployment with an appealing eye-catching shape, the Bora, like pop-up tents, also offers optional printed canopies and walls. Customisable areas make highly effective brand messaging, ensuring maximum impact at events. As with all custom-printed graphics, they can easily be replaced, meaning you are also able to reuse your hardware, improving your return on investment.

Pop-up tents

Zoom Tent Eco

The Zoom Tent Eco is the most cost-effective gazebo in our range. Quick and easy to deploy, the 3x3m tent can easily accommodate a 2.4m wide table making it a great solution for street markets, golf days or sporting events. Made from steel with a white powder coated finish, the frame easily shelters up to five people and folds completely into a portable wheeled carry bag. Custom fully printed canopy and walling available as an optional extra.

Inflatable tents

Bora Tent

The Bora Inflatable Tent is a sturdy and attractive option for outdoor displays. Create shade and shelter for a registration desk, refreshment area or meeting point that fully shows off your brand. As one of the largest products in the range, there is plenty of print area on the canopy and backwalls (optional extra) for brand messaging. The backwalls zip in, so can be changed for a different message from the canopy if you wish. The Bora Tent uses trapped air technology: silent and free-standing once inflated.

Counters

Temporary counters add a professional touch to any exhibition, event, or retail environment. They provide a useful area for display or presentation space and, the ability to add a graphic, creates additional marketing opportunities as well as offering a convenient storage facility.

Our counters are available in a range of price points and shapes, depending on requirements. Add impact to a welcome desk or a reception area in a public space with an illuminated counter or choose an outdoor option to promote a product or service at an open-air event.

Counters

Counters are the perfect partner for a promotional display or event to complement a backdrop or add focus to an area and are the ideal companions for any marketing campaign.

Non-illuminated promotional counters

Pop-up Counta

A convenient lightweight pop-up counter that offers a substantial area to welcome guests yet packs down for easy transportation in a reinforced D-shaped wheeled trolley case. The counter comes with shelves for storage and a beech-coloured counter-top. Often used for exhibitions, in supermarkets as a demonstration unit and for events.

Modulate™ Counter

Modulate™ Counter consists of an innovative aluminium tubular frame, counter-top, and printed tension fabric graphic. Powerful magnets encased inside the frame enables two or more counters to connect using simple magnetic principles. The counter can be used on its own or combined to make a long reception or bar area. Modulate™ Counter can be deployed in minutes, thanks to the tool-less construction. The printed tension fabric graphic will either sit on or under the counter-top to suit the application.

Basic Curved Counter

With a Double-D shape counter-top, the Basic Curved Counter delivers a functional and stylish look which is perfect to use for a reception desk or meeting point. The Counter is made from a rollable Corex tambour wrap to create the curved shape which push-fits into the thermoformed counter-top and base. A graphic can also be applied to the curved base to promote a message or brand. There is an opening for storage at the rear of the unit.

Illuminated promotional counters

Embrace+ LED Counter

The Embrace+ Backlit Counter is a double-sided portable unit that can be quickly deployed and will add impact to any event or exhibition stand. The counter comprises of four main components: the collapsible white aluminium powder coated frame, the LED curtain lights, the counter-top and a set of optional SEG tension fabric graphics. The backlit LED curtain lights provide consistent illumination with no black spots and are powerful enough to illuminate both sides of the frame, without the need to add an additional LED curtain.

Illumigo™ Counter

This versatile and quick to set-up double-sided counter lightbox is a great all-rounder not only at events but in retail environments from shopping centres to pop-up shops. Part of the Illumigo™ range, the Illumigo™ Counter is easy to assemble with a two-part counter-top that secures using a pair of twist out top locators and locking screws. Building the unit is intuitive and tool-free as all the parts are numbered and simply slot together. Two optional graphics complete the look to create an impactful counter ideal for attracting attention in retail, event or exhibition environments.

Barriers

Barrier systems improve queue management and help with crowd control.

For pedestrian control, café barriers can be used to make an attractive, professional and functional barrier, creating a temporary space that can be easily reconfigured to suit your needs.

Café barriers are easy to store, assemble, deploy and move to suit your requirements. They are available in economy and premium solutions, depending on your application and budget.

Barriers

Queue management systems can be used to control queues, providing structured and manageable lanes to help marshal customers and are also suitable for indoor or outdoor use.

Pedestrian control standard barriers

Economy Café

A cost-effective way of defining areas outside restaurants, bars, shopping centre and coffee shops. A complete Café Barrier system requires two posts and bases. To secure the graphic, there are two options; dependent on budget and where the system is being deployed. If the Café Barrier is exposed to strong winds, we recommend a two-rail option ensuring the graphic is secured top and bottom to each post and base. If winds are not an issue but the budget is tight, then we suggest a single rail with two spring clips securing the bottom of the graphic. Rails are available in 1m, 1.5m and 2m sizes so it is quick and easy to calculate the number of café barriers required to define your space. To connect multiple barriers, add your choice of rails/spring clips plus one additional pole and base. All hardware components are finished in black. We can print vibrant graphics on PVC vinyl or recycled eco media.

| | |

Pedestrian control premium barriers

Deluxe Café

With premium look and feel the modular Café Barrier system defines areas outside restaurants, bars, coffee shops, shopping centre and club houses. A complete Café Barrier system requires two posts and bases. To secure the graphic, there are two options; dependent on requirements and where the system is being deployed. If the Café Barrier is exposed to strong winds, we recommend a two-rail option ensuring the graphic is secured top and bottom to each post and base. If winds are not an issue and you want movement in the graphic, chose a single rail with two spring clips securing the bottom of the graphic. Rails are available in 1m, 1.5m and 2m sizes so it is quick and easy to calculate the number of café barriers required to define your space. To connect multiple barriers, add your choice of rails/spring clips plus one additional pole and base. All hardware components are finished in a premium chrome effect. We can print vibrant graphics on PVC vinyl or recycled eco media.

LED Exhibition Light

Specifically designed to work in conjunction with The Linear and Vector channel; this latest design requires no extra fitting, just plug in and switch on. Not only does the slick design make the LED Exhibition light stand out from the crowd, the clever design cast out of aluminium allows any heat to dissipate over the entire body of the light, stopping any localised heat, which allows for long use with no over heating. Link up to 5 lights together from one transformer, so no need for extra transformers just link them together with handy linking cables.

Applications

We Provide creative display solutions that suit a multitude of industry applications.

Our display products are not only multi-functional and in many cases reconfigurable, but they can also be used for an array of different applications across a multitude of industries.

From retail or educational settings, outdoor sporting events to hospitality and corporate events; our creative display solutions are suitable for more than just exhibitions.

The following pages are a guide for where our popular products are often used to enhance brand messaging, in a vibrant and eyeing catching way.

Retail

In the age of digitalisation, the main challenge for retail is to consider the customer experience at the point of sale.

Window displays

Commercial events

Retail signage

Pop-up Store

Seasonal Campaigns

Sales

Shop openings

Click and collect

Car showroom

Leisure Activities

The leisure industry represents an important part of the economy. From hospitality through to galleries, promoting the benefits of improved well-being and quality of life is essential with innovative displays that catch the eye.

Cultural Events

Social events with a national or international scope involve a large audience and can have a huge impact. The organisation is often extremely complex and requires significant communication resources.

Interior signage

Outdoor signage

Posters

Award ceremonies

Award ceremonies

Professional sporting events

Music venues

Hospitality signage

Suspended signage

Amateur sporting events

Fundraising

Festivals

Fairs and markets

Cinema foyers

Art galleries

Military open days

Electoral campaigns

Fashion shoot

Corporate Events

Corporate events are essential for companies to maintain close relationships and partnerships with their customers, business partners or employees.

University Events

Educational, artistic and cultural events offer encounters, projects and practical experiments. The aim is to ensure artistic and cultural educational coherence for all pupils.

Product launches

Brand launches

Sales meetings

Open days

Campus life

Graduation ceremonies

Outdoor corporate events

Corporate meetings

Corporate dinners

Fresher's week

Graduation shows

Career and job fairs

Gala events

Open days

Showrooms

Ceremony staging

Student services

Gown hire

Conference

Preparing a conference is an excellent opportunity for brand exposure at high value-added events. Brand messaging should communicate exceptional, new, or informative and important information relating to your business.

Exhibitions

From planning to execution: give your brand the exposure it deserves with original, renewable and customised solutions.

Conferences

Seminars

Press conferences

Exhibition reception area

Exhibition shell system

Merchandising stand

Product launch

Concourse advertising

Roadshows

Exhibition literature stand

Art gallery exhibition

Reconfigurable exhibition

Networking

Trade fair

Annual General Meetings (AGMs)
